

Nabeela Shabbir

Computer Science Graduate | Web Developer | Cybersecurity Foundations
Khaur, District Attock, Punjab, Pakistan • zarishf260115@gmail.com • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Computer Science graduate from the University of the Punjab (2022–2026) with hands-on experience building and deploying web applications using React, Node.js, Express and MySQL. Built Capstone Manager, a role-based Final Year Project management system, and has published responsive sites on Vercel, Netlify and Cloudflare. Recently completed IBM SkillsBuild Cybersecurity Fundamentals and Cisco Networking Academy Introduction to Cybersecurity, adding a working knowledge of common cyber threats, online safety and organizational defense, and completed Microsoft Learn modules on generative AI and AI agents. Analytical, detail-oriented and quick to learn new tools; well suited to roles in software development, technical support, entry-level IT or security, or administrative coordination.

SKILLS

Technical

- HTML5, CSS3, responsive UI design
- JavaScript (intermediate), React.js
- Node.js & Express (basic), REST APIs
- MySQL / relational databases
- Git/GitHub, deployment (Vercel, Netlify, Cloudflare)
- AI-assisted development (Lovable, Claude)
- Generative AI & AI agents (fundamentals)
- Cybersecurity fundamentals: threats, attacks, vulnerabilities, safe online practices

Professional

- Analytical thinking & problem-solving
- Attention to detail
- Self-motivation & time management
- Adaptability & continuous learning
- Team collaboration & clear communication
- Psychology & communication skills

CERTIFICATIONS

Cybersecurity Fundamentals — IBM SkillsBuild

Sep 2026

Verify: credly.com/badges/5dabe3c4-6b17-476d-8866-bdd369bbfc7a

Introduction to Cybersecurity — Cisco Networking Academy

Sep 2026

Covers common threats and attacks, protecting yourself online, and how organizations defend their operations.

Verify: credly.com/badges/cae68dfc-5fd1-46d3-99dd-61fbc3eb6ccd (issued under my account name, Zarish Fatima)

Introduction to Generative AI and Agents — Microsoft Learn

Covers the fundamentals of generative AI, including large language models (LLMs), prompts and AI agents.

Verify: [Microsoft Learn credential](#)

Explore Generative AI — Microsoft Learn

Foundational module on core generative AI concepts.

PROJECTS

Capstone Manager — FYP Management System

2025 – 2026

Final Year Project | React · Node.js · Express · MySQL · Vite

- Collaborated with a 3-member team to design and build a role-based web app for Students, Supervisors, FYP Coordinators and HODs.
- Implemented a Gantt-style scheduling page with add/edit/delete phases and PDF export via jsPDF.
- Built PastProjectArchive, ReportHistory, ViewDemoVideos and multi-role Sidebar components.
- Fixed CORS-blocked file downloads with a dedicated Express route using Content-Disposition headers; integrated Multer for file uploads.
- Wrote MySQL queries for filtering, searching and department-wise report generation.

AYRA — Luxury Formal Wear E-commerce Website

2026

Personal project | React (Vite) · React Router · Context API Live: ayra-formals.netlify.app

- Built a multi-page storefront (Shop, Product Detail, Cart, Wishlist, Contact) with cart and wishlist state shared across pages via React Context.

- Added search, category filters, size and colour selection, and a WhatsApp checkout that sends a pre-filled order summary; deployed on Netlify.

Brew & Bloom — Specialty Café Website

2026

AI-assisted (Lovable, Claude) | React · TanStack Start · TypeScript · Cloudflare Workers Live: tanstack-start-ts.nabeelashabbir26.workers.dev

- Directed and refined an AI-assisted café site concept with a tabbed menu (coffee, breakfast, desserts, snacks), gallery, featured items and opening hours.
- Set up a table-request form and ordering that open WhatsApp with pre-filled details; deployed on Cloudflare Workers.

Elite Cuts — Barbershop Website

2026

AI-assisted (Lovable, Claude) | React · TanStack Start · TypeScript · Cloudflare Workers Live: 1d95de7a-tanstack-start-ts.nabeelashabbir26.workers.dev

- Directed and refined an AI-assisted barbershop site concept with services and pricing, gallery, client reviews and hours.
- Added an appointment request form with WhatsApp booking; deployed on Cloudflare Workers.

GiftDrop — Gifting Website

2026

Personal project | Deployed on Vercel Live: giftdrop-vercel.vercel.app

- Designed and deployed a gift-themed website, published publicly on Vercel.

Bistro — Restaurant Website

2026

Personal project | React (Vite) · React Router Live: restaurant-e0460d.netlify.app

- Built a responsive multi-page restaurant site (menu, gallery, contact/location) from reusable React components; deployed on Netlify via GitHub.

Developer Portfolio Website

2026

Personal project | HTML · CSS · JavaScript Live: nabeela-shabbir.vercel.app

- Built a responsive portfolio with scroll-reveal animations (Intersection Observer API), a flip-card avatar, project screenshot viewers with a lightbox, and a contact form that opens Gmail; deployed on Vercel.

EDUCATION

Bachelor of Science in Computer Science (BSCS) — Graduated

2022 – 2026

University of the Punjab, Lahore

- Coursework: Programming Fundamentals, Data Structures, Databases, Software Engineering, Web Technologies.
- Capstone: full-stack FYP Management System (Capstone Manager).

ACCOMPLISHMENTS

- Helped architect and build a multi-role, full-stack web application as part of a 3-member team.
- Debugged frontend/backend integration issues including CORS, file routing and layout systems.
- Self-taught React hooks, Express middleware and MySQL query design alongside formal coursework.
